

MADE TO MEASURE

TURNSTYLE
DESIGNS

MADE IN ENGLAND

Our **Made To Measure** service was born from a growing need to provide bespoke solutions for our clients.

Shown here are our catalogue range of products available in custom lengths. However, with our bespoke services, **Modify** and **Tailored**, further customisation and development is available across all designs.

See page 33 - 36 to find out more

Our latest Hammered Echo Cup Handle in Burnished Nickel

Echo Solid Cup Handles

Designed by Christina Roberts, this edge pull was created to support the look and feel of a British classic, the Range cooker. The most important aspect of the design was to have a deeper leading edge than others on the market, to create a stronger line and distinctive feel.

Available in 9 solid brass finishes as well as solid Burnished Brass and solid Burnished Nickel. Shown here in Polished Brass.

Barrel Solid Pull Handles in Matt Black Chrome

MODIFY

We offer modification and customisation options for clients, by using our existing stock components. This is a cost effective way to enable a client to have a unique, bespoke design by modifying material, grips or finish and thereby benefiting from both price and delivery times.

CUSTOM LEATHER

When a client selects their own leather for Turnstyle to apply to an existing design. Leather must be approved for suitability by Turnstyle first and minimum quantities will apply. There is a surcharge of around 25% that will be applied to free issue leather as it is generally harder to work with and will need to be hand cut. The client is responsible for the durability of leather. You can also change the stitching to change the design.

CUSTOM GRIPS

Use Turnstyle body, legs, and roses, but create your own grip for door lever, cabinet D handles or door pulls. For custom lengths, a minimum quantity will apply and pricing will be on application. Custom design grips can be made from cost effective and very versatile castings in Amalfine™, machined in a timber of your choice, or made from other materials, including marble, brass, carbon fibre, and many more. The flexibility we offer will allow you to create your very own door lever, pull and cabinet D handle. Minimum order quantities apply according to your chosen process.

CUSTOM METAL FINISHES

Alongside our standard metals we have a range of custom finish options including Rose Gold, Vintage Copper and Silver Plate. Minimum orders will apply and again the pricing will be dependent on your chosen material.

Examples of the metals we have experience with are:

- Classic Gold
- Fine Satin Stainless
- Rose Gold
- Polished Copper
- Brushed Nickel
- Brushed Chrome
- Silver Plate
- Pearl Chrome PVD- Various options
- Black Chrome
- Aged Brass

TAILORED

If you are not able to find something to suit your project in either our catalogue range or via the Modify process we will be happy to discuss developing and manufacturing your vision from start to finish. We have the capabilities and know-how to manufacture most types of door hardware, however complex. We have been the manufacturer of choice for some of the most prestigious and demanding clients in the world, including a large number of Super yacht builders and designers.

WHO TO CONTACT

In the first instance please contact our custom design department at our head office and ask for Alex Foster on + 44 (0)1271 325 325 or email alex@turnstyledesigns.com. Alex will discuss the project, designs and suitability (to develop time scales and budget indications) from prototyping to full delivery.

UNIQUE DESIGNS

Shown here is a small selection of some of the designs and products we have made for clients in recent years. Please note, none of these designs can be repeated as each custom piece belongs to the client that commissioned it.

PERFECTLY DESIGNED GRIPS

We understand the demands put on door and cabinet hardware, and we will ensure that your design not only looks perfect, but it is also built to last.
