

STACKED DOOR KNOBS

The Stacked door knob was designed by Christina Roberts and comes in six of Turnstyle's best-selling Amalfine™ designs as well as leather, solid and hammered brass.

The Stacked Door Knob comes in six Amalfine™ designs; Labyrinth, Woven, Wire, Faceted, Shagreen and Barrel, as well as material finishes of leather, solid brass and the stunning hammered brass.

The creation consists of bold designs, stacked between two slim layers of brass and set on a contemporary rose. Cabinet knobs, in the same finishes, are also available to co-ordinate with the door knobs.

The new designs are a clever fusion of classic and bold, whilst incorporating Turnstyle's trademark mix of materials and finishes. Each of the designs are available in over 54 combinations of materials and finishes, allowing for the perfect fit within an interior design.
