

## BONNEVILLE

**Designed by Christina Roberts, these oversized, bold door levers were inspired by the classic Great British Motorbikes of the 1950s.**

The Bonneville design is derived from the Norton design, using the same Pipe shaft and caps, but with a smooth barrel grip, available in all of the leather finishes, solid brass or hammered brass.

Bonneville has an impressive 67 different finish and material combinations, allowing for customisation on a very personal level.

## SOLID AND HAMMERED

### Bonneville Lever Handle - QS2700
