MADE IN ENGLAND

PRESS RELEASE

WIRE

# WIRED UP

September 2015: Amongst Turnstyle Designs new creations is the “Wire” range of door hardware that was launched at 100% Design, Focus and Monaco Yacht Show. Available in door levers, door pulls and cabinet hardware and in multiple different finishes.

“Wire” is a contemporary grip design with industrial undertones, cast in Turnstyle’s signature Amalfine (a resin like material) and available in the Recess Amalfine range of door levers and pulls.

Inspired by a 1950s industrial lamp fitting that she came across in an antiques fair, Christina Roberts designed the stunning collection to fit in with the Industrial Chic trend in Interiors that we see has continued for another year. The handles are ergonomic and work well in most contemporary interior design, both commercial and residential.

Wire was launched at 100% Design, Focus and Monaco Yacht Show, which are all happened in the same week in September, Christina Roberts attended all three shows for “Meet the Designer” sessions.

Unit 115, Design Centre East, Chelsea Harbour, SW10 0XF

Delivering luxury door hardware for high-end residential, commercial and yacht projects for 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™.

From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
