The company takes great pride in its use of vegetable-tanned Italian bridle leather, sourced exclusively from European farms, exemplifying its dedication to responsible sourcing practices.

As proud members of '1% for the planet', we donate 1.5% of our annual turnover to environmental causes and organisations and a further 0.5% to mental health charities.

*Being based in the North Devon Biosphere we are continuously reminded of how remarkable the natural world around us is. The importance of protecting and regenerating our local area is constantly reinforced by our daily exposure to it. Alongside reducing our direct impact as a business, we work closely with local charities and non-profits to support rewilding, reduce plastic pollution and protect the seas and rivers.*

We continue to build on this every year." **Oscar Robert, Managing Director**

Turnstyle Designs' unwavering commitment to sustainability sets the company apart as a hardware industry leader. By prioritising sustainable practices, the company showcases its dedication to creating a more environmentally conscious future.

**Living Wage**  
Employer

Delivering luxury door hardware for high-end residential, commercial and yacht projects for 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™. A truly family run business, Turnstyle is now managed by their eldest son Oscar.

From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
