SPHERE

LATEST DOOR & FURNITURE HARDWARE

SPHERE

NEW PRODUCTS FROM TURNSTYLE DESIGNS

The Sphere design is the result of combining modern engineering with traditional brassworking techniques.

The hammered sphere was developed through an engineering innovation that allows us to apply our signature hand hammered finish to a solid ball of brass. Precisely machined raw brass is turned to form a perfect sphere shape. Then, using specialist tools, our skilled team of artisans are able to apply Turnstyle's unique hammering pattern. The result is a completely new silhouette for the Turnstyle solid brass range.

We've also used this new technique to develop a matching door and cabinet knob which can be specified as solid or hammered.

Available in our hand patinated living finishes as well as all our plated and polished options.

Delivering luxury door hardware for high-end residential, commercial and yacht projects for 30 years, Turnstyle Designs was founded by Steve Roberts in 1992. Steve and his wife Christina work collaboratively to design some of the world's most innovative decorative hardware, using a broad palette of materials and finishes including, brass, leather and Amalfine™. A truly family run business, Turnstyle is now managed by their eldest son Oscar.

From hand stitched leather to individually hammered door hardware, attention to detail is found in every product made. Turnstyle is proudly British made and manufactured in the beautiful Devon countryside. With multiple product combinations and flexibility to allow customisation, there is something for everyone.
